

**ALSTOM** Bulgaria EOOD (formerly known as ALSTOM POWER BULGARIA EOOD)

**Maritza East 1 Power Plant 2 x 300MW**

**ALSTOM Bulgaria EOOD, Maritza East 1 Power Plant, Industrial region, 6280, Galabovo, BULGARIA**

Ref: Bushev EOOD

1<sup>st</sup> April, 2011

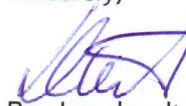

**To Whom It May Concern:**

Developing a good common collaboration with the abovementioned company, we would like to state that our business experience with Bushev EOOD on the building site of AES-3C Maritza East 1 project, Galabovo, Bulgaria, was very good and useful.

Bushev EOOD organized and performed insulation works on Unit 1 and Unit 2. This company has all needed resources for executing the works properly and according the appropriate standards.

We are pleased to recommend this company for insulation works.

Sincerely,

  
Roy Leonhardt  
APB Construction Manager

**To Whom It May Concern:**

**CERTIFICATION OF ON-SITE COLABORATION**

Our company ALSTOM Power Boiler GmbH has undertaken the design and construction of Maritza East 1 Lignite Fired Power Plant, Galabovo, Bulgaria, with capacity of 2x300MW, on behalf of AES.

Herewith we would like to certify that Ivaylo Zlatev has worked on the insulation works for the company Bushev EOOD since the very start of these works. During this period Ivaylo's main responsibilities have been supervision and inspection of the insulation works done, as well as translation on work site meeting and coordination between our two companies. He has also been deeply involved in all safety and quality issues related to the execution of the insulation works.

I have ascertained that, working in the position of a supervisor for the company Bushev EOOD, in a vast variety of jobs, he has personally attained knowledge and experience in all of the abovementioned subjects / techniques and he can confirm ability to perform these tasks on his own to a competitive degree.

This document has been reviewed and signed, on behalf of ALSTOM by:
